

# Exchange your old toilet for a high efficiency toilet **FOR FREE!!**

## “Hurry while supplies last!”

Fontana Water Company is offering a high efficiency toilet installation program to all residential customers. For each toilet installed you can save as much as 14,000 gallons per year per toilet. This program only replaces toilets that are 3.5 gallons per flush (GPF) or greater.

## This Program Includes:

- Toilet Installation
- A Quality High Efficiency Toilet
- Wax Ring, Bolts and Installation Hardware
- A Six-Month Customer Service Guarantee

Also Available to Apartment Owners  
& Property Managers

## See if your toilet qualifies for this program:

Look at the space on your toilet bowl between the seat and the tank for a stamp that indicates your (GPF).

Look under the tank lid/side of tank for a stamp which shows the manufacturing date (must be prior to 1992) OR the (GPF).

Look at the design on the lower part of your toilet. The shape illustrated below means toilet DOES NOT qualify.
