

SAN GABRIEL VALLEY WATER COMPANY

February 5, 2018

Advice Letter 512-A

U337W

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

San Gabriel Valley Water Company (“San Gabriel”) hereby requests ministerial review of the following changes in tariff sheets applicable to both its Los Angeles County and Fontana Water Company divisions:

<u>CPUC</u> <u>Sheet No.</u>	<u>Title</u>	<u>Schedule</u> <u>No.</u>	<u>Canceling</u> <u>CPUC</u> <u>Sheet No.</u>
2785-W	Rule No. 15 Main Extensions (cont.)	N/A	1552-W
2786-W	Table of Contents (cont.)	N/A	2600-W
2787-W	Table of Contents	N/A	2784-W

The purpose of this supplemental advice letter is to update the Rule No. 15 income tax component of Contributions In Aid of Construction (CIAC) and Advances in Aid of Construction (AIAC), using Method 5, as a result of the federal 2018 Tax Cuts and Jobs Act (“New Tax Law”). In accordance with Water Industry Rule 7.3.1, **this filing is designated as Tier 1.**

Background

The New Tax Law, which is the first major overhaul of the Internal Revenue Code since 1986, was signed into law on December 22, 2017, and is effective as of January 1, 2018. Among other things, the New Tax Law reclassified CIAC and AIAC as taxable income to public utilities, as well as reducing the corporate income tax rate from 35% to 21%. The Commission previously addressed a federal income tax law change affecting Rule No. 15 in D.87-09-026 in I.86-11-019 and in Resolution W-4263, dated April 19, 2001.

Discussion

San Gabriel submits an original and four copies of this advice letter and requests that the attached proposed tariff sheets be made effective as of January 1, 2018.

In D.87-09-026, the Commission investigated five different methods of accounting for a new tax on CIAC. This decision allowed water utilities to use two of those methods depending on company size. Method 2 allowed utilities to gross-up the CIAC by enough money to pay the income tax (and the income tax portion of CIAC) and charge that amount to the contributor, whereas Method 5 required utilities to advance part of the tax, resulting in a lower gross-up. San Gabriel employed Method 5.

The Small Business Job Protection Act repealed taxes on CIAC for water and sewage utilities for amounts received after June 12, 1996. However, on January 6, 2001, the Internal Revenue Service reclassified CIAC receipts for single-customer service lines (the pipe and fittings from the distribution main, the meter box, and the meter to serve a single customer) as taxable income.

Section E.2 of Rule No. 15 currently lists the tax gross-up factors of 36.63% for CIAC and 37.48% for AIAC. Section E.5 of Rule No. 15 states:

The ITC tax factors [i.e., Income Tax Component or tax gross-up factor] ... will remain in effect until changes to those rates would increase or decrease the ITC tax factors by five percentage points or more. When and if that occurs, the utility will file an advice letter showing the new rates and cancel this sheet.

The New Tax Law exposes San Gabriel (and ultimately, ratepayers) to significant additional liability for federal income taxes that were not contemplated in the last general rate case. Therefore, San Gabriel submitted Advice Letter 512 prior to receiving specific direction from the Commission regarding the ratemaking treatment of the income taxes on CIAC that it intends to authorize with tax gross-up calculations using both Method 2 and Method 5. Subsequently, Water Division instructed San Gabriel to supplement Advice Letter 512 to eliminate Method 2.

San Gabriel computed the gross-up factors using Method 5, which are included in the workpapers:

	<u>LA Division</u>	<u>Fontana Division</u>
For CIAC	21.54%	21.43%
For AIAC	22.58%	22.49%

Notice

Since this filing does not result in an increase in rates to customers, withdrawal of service or more restrictive terms or conditions, customer notice in accordance with Section 3.2 of General Order 96-B is not required. However, copies of this filing are being distributed to the parties on the attached distribution lists in accordance with Water Industry Rule 4.1, and will also be posted to San Gabriel's websites, www.sgvwater.com and www.fontanawater.com, in accordance with Water Industry Rule 3.3.

Protest and Responses

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) San Gabriel did not properly serve or give notice of the advice letter;

- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require relitigating a prior order of the Commission.

b. For AIAC:	22.58%	22.49%	(R)

3. The tax factors are established using Method 5, as set forth in Decision No. 87-09-026 in I.86-11-019.

4. The formula to compute the ITC tax factors include:

When and if that occurs, the utility will file a Tier 1 advice letter showing the new rates and cancel this sheet. (T)

6. The utility shall inform the Applicant of the final cost of the installation of all facilities and the resulting tax paid thereon. (T)

7. In the event the utility collects an ITC using an incremental tax rate that is more than its incremental tax rate as determined on a taxable year basis, without consideration of a tax credit or tax loss carryforward, the difference between what was and what should have been collected will be refunded to the Applicant.
