SAN GABRIEL VALLEY WATER COMPANY

June 10, 2022

Advice Letter No. 581

U337W

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

San Gabriel Valley Water Company ("San Gabriel" or "Company") hereby requests ministerial review of the following changes in tariff sheets applicable to its Los Angeles County and Fontana Water Company divisions:

CPUC Sheet No.	Title	Schedule No.	Cancelling CPUC Sheet No.
3225-W	Preliminary Statement, Section T	n/a	n/a
3226-W	Table of Contents	n/a	3224-W

By this advice letter, San Gabriel seeks to add Paragraph T to its Preliminary Statement, describing the operation of a new Water Conservation Memorandum Account ("WCMA"). The purpose of the WCMA is to track incremental (i.e. not currently reflected in San Gabriel's revenue requirement and/or rates) recorded operations and administrative costs of complying with the emergency water conservation regulations adopted by the State Water Resources Control Board ("SWRCB") in Resolution No. 2022-0018, and the California Public Utilities Commission's (Commission) Resolution No. W-4976 adopting drought procedures for voluntary and mandatory water conservation measures related to both Rule 14.1, voluntary water conservation, and Schedule 14.1 mandatory rationing efforts. San Gabriel requests that the attached proposed tariffs be made effective on July 1, 2022. **This advice letter is designated as Tier 2.**

Background

On February 28, 2014, the California Public Utilities Commission ("Commission") issued Resolution W-4976, adopting Drought Procedures for Water Conservation, Rationing and Service Connection Moratoria based on an updated Standard Practice U-40-W ("SP-40"). Paragraph 24 of SP-40 states, in part:

24. ... All expenses incurred by utility to activate both Rule 14.1 voluntary conservation and Schedule 14.1 mandatory rationing efforts that have not been considered in a General Rate Case or other proceeding, shall be recoverable by the utility if determined to be reasonable by the Commission. These monies shall be accumulated by the utility in a separate memorandum account for disposition as directed or authorized from time to time by the Commission.

Paragraph 35 of SP-40 states, in part:

35. Memorandum accounts to track expenses and monies collected by the utility through water use violation fines must be requested through an advice letter, either in conjunction with an advice letter requesting adding Rule 14.1 or Schedule 14.1, or in a stand-alone advice letter. ...

On April 21, 2021, in an effort to actively respond to severe drought conditions and preparing for the possibility of a third consecutive dry year, Governor Newsom issued a proclamation declaring a Drought State of Emergency in two California counties. (*see ATTACHMENT 1*) Subsequently, in May and July 2021 the governor updated his Emergency proclamation to include 50 counties, or approximately 42% of the state's population, and directed state agencies to take further actions to bolster drought resilience and prepare for impacts on communities, businesses and ecosystems. Additionally, Governor Newsom called on all Californians to reduce their water use by 15% from 2020 levels. (*see ATTACHMENT 2*)

In response to these measures, the Commission, by letter dated July 8, 2021, called on all investor-owned water utilities to implement water conservation measures to achieve the Governor's requested 15% reduction in water use, and specifically referenced the procedures and guidelines set forth in SP-40. Accordingly, San Gabriel notified the Director of the Commission's Water Division on July 16, 2021, of the Company's intention to communicate with customers the need to reduce water use by 15% compared to 2020 usage and implement voluntary conservation measures as described in Tariff Rule 14.1. (*see ATTACHMENT 3*) Accordingly, San Gabriel has distributed monthly notices to all customers in its Los Angeles County and Fontana Water Company divisions calling on them to reduce their water use by 15%.

On August 17, 2021, the Metropolitan Water District of Southern California ("MWD") issued a Condition 2 – Water Supply Alert under its Water Surplus and Drought Management Plan, calling on all of its member agencies, cities and counties to implement conservation measures that support retail customers in reducing their water use and continue to preserve regional storage reserves. Subsequently on August 25, 2021, the Upper San Gabriel Valley Municipal Water District ("USGVMWD"), an MWD member agency, activated Level 2 of its Water Shortage Contingency Plan, thereby triggering the implementation of a district-wide drought communications plan to support water use reductions in its service area, including the region served by San Gabriel's Los Angeles County division. (*see ATTACHMENT 4*)

On October 19, 2021, Governor Newsom issued another Drought Emergency Proclamation to include the entire state of California, including Los Angeles and San Bernardino counties. In this emergency proclamation, the governor directed local water suppliers, including San Gabriel, to execute their Water Shortage Contingency Plans at a level appropriate to local conditions that takes into account the possibility of a third consecutive dry year. (*see ATTACHMENT 5*)

By Advice Letter 574, effective January 13, 2022, San Gabriel updated and activated its Rule 14.1 – Water Shortage Contingency Plan, to align with its recently adopted 2020 Urban Water Management Plans for the Los Angeles County and Fontana Water Company divisions. By this advice letter, San Gabriel declared a Water Alert pursuant to Section A.1 of the Company's new

Rule 14.1, indicating the need for voluntary conservation in accordance with the Governor's October 19, 2021 Proclamation of a Drought State of Emergency. In accordance with the Water Alert San Gabriel declared on January 13, 2022, customers shall not use utility-supplied water for non-essential or unauthorized uses, as outlined in Section B of Rule 14.1.

On March 28, 2022, Governor Newsom issued Executive Order N-7-22 directing the SWRCB to consider adopting, by May 25, 2022, emergency regulations, including the requirement that urban water suppliers implement, at a minimum, water shortage response actions reflective of a water shortage level of up to 20%. (See **ATTACHMENT 6**)

On April 26, 2022, MWD's board voted unanimously to declare a water shortage emergency and implement an emergency water conservation program. By Resolution 9305, MWD called on all of its member agencies to make all possible changes in their operations to reduce their reliance upon MWD's State Water Project ("SWP") supplies, and immediately implement conservation requirements, efficiency measures, and limitations in accordance with their water shortage contingency plans. MWD further implemented an Emergency Water Conservation Program that provides two pathways for affected member agencies, which include either (1) restricting outdoor irrigation to one day per week beginning June 1, 2022, or (2) complying with monthly allocation limits subject to penalties of \$2,000 per acre-foot on all excess usage. (See **ATTACHMENT 7**)

On May 10, 2022, the USGVMWD adopted an Emergency Water Conservation Program applicable to 18 cities and 22 water retailers in the San Gabriel Valley, including San Gabriel's Los Angeles County division. USGVMWD's Emergency Water Conservation Program calls for reductions in water use of 20%, and limits outdoor irrigation to two days per week for its retail member agencies, including San Gabriel. (See **ATTACHMENT 8**)

On May 24, 2022, the SWRCB adopted emergency water conservation regulations, effective June 10, 2022, requiring San Gabriel and all urban water suppliers to implement Level 2 demand reduction actions described in their Water Shortage Contingency Plans on file with the Department of Water Resources, and prohibiting the use of potable water for irrigating non-functional turf at commercial, industrial, and institutional ("CII") sites. Level 2 actions are meant to achieve a reduction in water demands of up to 20% by limiting, among other things, the irrigation of landscapes with potable water to no more than two days per week, between the hours of 10 am and 6 pm. (See **ATTACHMENT 9**)

Discussion

San Gabriel's request in this advice letter complies with the directives in Paragraph 24 of the Drought Procedures (SP-40) adopted by Resolution W-4976, and referenced above. San Gabriel's proposed WCMA is identical in operation to the Company's previous WCMA, which the Commission authorized by Advice Letter 446, and was in effect from March 28, 2014 through April 26, 2017 – a period during which both mandatory and voluntary conservation measures were in effect during a declared drought emergency.

The WCMA will record San Gabriel's incremental public relations expenses, incremental water conservation materials expenses, and other incremental operational and administrative expenses

that are unforeseen and unexpected, which are associated with implementing the emergency conservation rules, regulations, and programs discussed above, as well as Rule 14.1 and, potentially, Schedule 14.1. These incremental expenses include, but are not limited to, complying with the SWRCB's emergency water conservation regulations adopted on May 24, 2022, which require, among other things, the identification of non-functional turf at all CII locations within the Los Angeles County and Fontana Water Company division service areas. For purposes of complying with this provision of the emergency water conservation regulations, San Gabriel has retained the services of an outside consultant to assist in the identification of non-functional turf as defined by the SWRCB.

San Gabriel will request recovery of amounts recorded in the WCMA in its next general rate case proceeding, or another regulatory proceeding as directed by the Commission. San Gabriel proposes that the WCMA remain in effect until the drought emergency is officially declared over.

The present drought emergency and resulting emergency conservation rules, regulations, and programs are not events within San Gabriel's control. San Gabriel could not have reasonably foreseen the present drought emergency and resulting emergency conservation rules, regulations, and programs at the time it filed its last general rate case. Moreover, San Gabriel cannot predict when the current drought emergency will be officially declared over or when the emergency conservation regulations will end. Consequently, San Gabriel will incur incremental and extraordinary expenses to comply with the various emergency rules and regulations.

Service and Notice

Distribution of this advice letter is being made to the attached service lists in accordance with Water Industry Rule 4.1 of General Order 96-B. No other parties have requested notification of tariff filings related to the Los Angeles County or Fontana Water Company divisions. In accordance with Water Industry Rule 3.3 of General Order 96-B, San Gabriel will also post this advice letter to its websites www.sgvwater.com and www.fontanawater.com.

Protest and Responses

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) San Gabriel did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which San Gabriel relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding;
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on a policy objection to an advice letter where the relief requested in the advice letter follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The address for mailing or delivering a response or protest is:

Email Address:
water.division@cpuc.ca.gov

Mailing Address:
California Public Utilities Commission
Water Division, 3rd Floor
505 Van Ness Avenue
San Francisco, CA 94102

On the same date the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy of the protest by mail to San Gabriel addressed as follows:

Email Address:
jmreiker@sgvwater.com

Mailing Address:
San Gabriel Valley Water Company
Vice President of Regulatory Affairs
11142 Garvey Avenue
El Monte, CA 91733

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division, within the 20 day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

The advice letter process does not provide for any further responses, protests or comments, except for San Gabriel's reply, after the 20-day comment period. San Gabriel will reply to each protest and may reply to any response. Each reply must be received by the Water Division within five business days after the end of the protest period, and shall be served on the same day to the person who filed the protest or response in accordance with General Order 96-B, General Rule 7.3.2.

If you have not received a reply to your protest within ten business days, contact San Gabriel at (626) 448-6183.

PRELIMINARY STATEMENT
(Continued)

T. Water Conservation Memorandum Account (WCMA)

1. Purpose

The purpose of this memorandum account is to track incremental (i.e. not currently reflected in San Gabriel’s revenue requirement and/or rates) recorded operations and administrative costs of complying with the emergency water conservation regulations adopted by the State Water Resources Control Board (“SWRCB”) in Resolution No. 2022-0018 in response to the Governor Newsom’s declared drought emergency, and the California Public Utilities Commission’s (Commission) Resolution No. W-4976 adopting drought procedures for voluntary and mandatory water conservation measures related to both Rule 14.1, voluntary water conservation, and Schedule 14.1 mandatory rationing efforts.

2. The WCMA will record San Gabriel’s incremental public education and outreach expenses, incremental water conservation materials expenses, and other operational and Administrative expenses that are unforeseen and unexpected directly associated with complying with and implementing the conservation practices outlined in the drought rules and regulations implemented in response to the governor’s declared drought emergency.

San Gabriel shall maintain the WCMA by making entries at the end of each month as follows:

- a. A debit entry shall be made to the WCMA at the end of each month to record the expenses discussed above.
- b. Monthly interest expense calculated at 1/12 of the most recent month's interest rate on Commercial Paper (prime, 3-month), published in the Federal Reserve Statistical Release, H.15 (<http://www.federalreserve.gov/releases/H15/data/m/cp3m.txt>), or its successor publication (debit or credit).

4. Disposition

Costs recorded in the WCMA may be recovered in rates only after a request by San Gabriel, a showing of reasonableness, and approval by the Commission. Such a request may be made by a formal application specifically for that purpose, by inclusion in a subsequent general rate case, or other ratesetting request, as detailed in G.O. 96-B and Standard Practices.
